

THE GENERAL DANGER STOPS LOCAL QUARREL

Irish Home Rulers and Their Opponents
Drop Their Dispute in the Face of
the Threatened War.

London, July 30.—That an agreement had been reached between the Irish home rulers and their opponents was asserted today by the Exchange Telegraph company, a source usually reliably informed concerning parliamentary matters.

The compromise, it was understood, was on the bill by which the home rule measure is so amended as to exclude Ulster from its operation. In principle there was an agreement on this proposition some time ago but the anti-home rulers wanted to include in the exclusion the Ulster counties of Tyrone and Fermanagh, while the home rulers wanted to bring them under the operation of the home rule bill because of their large Catholic populations.

How this point was settled was not stated in connection with the announcement that an agreement had been reached.

Hopes of an adjustment of the home rule controversy seemed for a time to have been blasted by the ill feeling which followed the firing by troops at Dublin into a home rule crowd, with the killing of four persons and the wounding of about 80. The factions were brought together again, however, by the danger of a general European war and the feeling that England should not be weakened by internal dissensions at a time when it was threatened from abroad.

THE WAR BEGINS IN LOS ANGELES

Los Angeles, Cal., July 30.—Two men are near death today as the result of a riot between Austrians and Servians in the Slavic section of the city. John Nulch, 21, and Steve Coloch, 25, both Austrians, were not expected to survive the day. Nulch was shot through the back and Coloch stabbed in the abdomen.

The riot is said to have been the outcome of a fight the previous night. According to members of the Austrian colony, the Servians deliberately planned an attack, and 200 strong, invaded the Austrian section, firing guns and throwing bricks.

More than 300 men were engaged in a furious melee when police reserves arrived. Many had been beaten severely. The police, however, had little difficulty in dispersing the rioters, few of whom were armed.

Steven Galich and V. Ruper, Servians, were arrested on suspicion of shooting Nulch. All pool rooms and saloons in the Slav and Austrian sections were closed today by order of the police.

TEXAS VETERANS GATHER.

Greenville, Texas, July 30.—Confederate veterans of Texas gathered here today for their annual reunion. There were fewer here today than at the reunion a year ago, and those who were here showed the signs of Times touch that will make next year's gathering even smaller. A barbecue, company reunions and recounting of war experiences were on the program.

American wealth and fashion is depicted in the accompanying picture. As the camera man got busy at Newport he gathered in such lights of society as Miss Janet Fish, Mrs. Frederic Nelson, Mrs. Reginald C. Vanderbilt, Mrs. George Bakmeteff and Mrs. Stuyvesant Fish, who are as prominent abroad as they are in the United States. Newport, R. I., has been the Mecca for the swell set for years and continues as popular as ever.

Teacher—Hereditary means something you get from your father or mother. Now, Willie, can you name something that is hereditary?

Willie—Yes, ma'am. A spakin'.

TALKS ON THRIFT.

THE PROBLEM OF THE GREAT MIDDLE CLASS.

"This rapid change in extreme fashions has but one object: namely, to force everybody who can to buy anew as often as possible. It has another effect; namely, to induce the great middle class to spend all it can earn."

—Dean Eugene Davenport.

Before the French revolution France was divided into three classes of "estates"—the nobility, the clergy and the common people.

We cannot close our eyes to the fact that in America today, as far as money matters are concerned, society is again divided into three classes—the rich, the poor and the great middle class, neither rich nor poor.

The very rich have their troubles, such as unwelcome publicity and the annoyances and insults of agitators of one kind or another, to say nothing of the burdens imposed by the care of their fortunes and the enforced maintenance of an elaborate scale of living.

The disadvantages and discomforts of poverty are too well known to need more than mention as we pass on to consider the sorrows of the great middle class, to which the great bulk of our citizens belong.

At the present time this large part of our population is being ground, so to speak, between the upper millstone of the necessity of keeping up appearances and the nether one of the high cost of everything.

Our grandmothers wore calico dresses costing not more than seventy-five cents. It would now take the price of ten to twenty such dresses to buy a hat for one of our daughters in the high school. What is more significant, our grandmothers earned the dresses themselves by working perhaps a whole week at housework. Do our young girls earn their hats?

Of course, times are different and we don't expect our young daughters to earn their clothing. But the fact remains that the present generation must pay exorbitantly for its clothing. There seems to be something like a conspiracy between the designers and the manufacturers of women's hats and dresses to prevent the development of a standardization of styles.

Every year brings a radical change in cut, color and texture, compelling the purchase of complete new outfits unless a woman wants to be out of style, which is nothing short of a calamity from the feminine point of view or the masculine either, for that matter.

This is one thing which for the time is beyond our control, but there are many others involving our expenditures of money which we can regulate, and doing so is the only hope of economic salvation for us of the great middle class, for by so doing we are enabled to save some of our resources and build up a reserve fund the earnings of which will eke out our own.

AUSTRIANS IN PORTLAND MAY BE ORDERED HOME

Portland, Ore., July 30.—Local subjects of Emperor Francis Joseph were holding themselves in readiness today to return to their native land to take up arms in the Austro-Serbian conflict, following the publication here of an official announcement issued by the Austrian consulate notifying them to prepare for duty.

There are about 600 Austrians in Portland liable to military service.

RITCHIE IS COMING.

New York, July 30.—Willie Ritchie, former lightweight champion of the world, announced here today that he would leave for California before the end of the week. The San Francisco arrived on the Vaterland yesterday from England where he lost his title to Freddie Welsh.

The former champion still insisted today that the worst he should have been given in his fight with Welsh was a draw. After receiving his guarantee of \$29,500 from Stakeholder Billy Gibson, Ritchie relieved himself of the following:

"America is the only country in the world. I never want to see England again. I am going back to California in a couple of days but I won't fight before fall."

"Referee Corri did not give me a square deal and I believe he realizes this fact now. I imagine he wanted to hear the tumult in favor of Welsh before he gave his decision, as it was almost three minutes before he indicated that Welsh had won."

"When the fight was over there was a general scramble in the ring and the crowd sang and howled. Naturally, when Corri heard all this, he figured it would be best to give an English decision. I know I can beat Welsh but I suppose it will be a long time before he fights again. However, I am young and can wait. It must be remembered, too, that I am still lightweight champion of America."

EMPRESS CROSSES PACIFIC IN EIGHT DAYS

Victoria, B. C., July 30.—People who have the idea that it requires from two to three weeks to cross the Pacific ocean received an awakening yesterday, when the Canadian Pacific liner Empress of Russia arrived at William Head from Yokohama, making the voyage in eight days, 2 hours. The Empress clipped six hours off her former fastest record for the voyage. The magnificent performance was made possible only by ideal weather conditions.

FORD WILL BAR ALIENS.

Los Angeles, July 30.—Henry Ford, president of the Ford Automobile company, will have none but American citizens in his employ.

Through the naturalization of three alien employees of the Ford plant here today it became known that a general order had been issued by Mr. Ford ordering all aliens in his employ either to become citizens of the United States or resign. The order will affect 100 men in the plant here, all of whom, it was said, had declared they would perfect themselves at once in citizenship rather than lose their jobs.

TWO BANDITS STOP TWELVE COACHES

One After Another Held Up a Dozen Coaches, Robbed 165 Passengers and Secured More Than \$3,000.

Gardiner, Mont., July 30.—A reward of \$600 was offered by transportation companies here today for the arrest of the two masked bandits who yesterday stopped 12 coaches on their way from Old Faithful Inn to the Lake Hotel in Yellowstone Park and robbed 165 passengers of more than \$3,000. A detachment of cavalry and a posse of deputy sheriffs and trappers are on the trail of the highwaymen, who are believed to have headed for the Jackson Hole country in Wyoming.

Immediately after the robbery, Col. L. M. Brett, superintendent of the park, ordered out the troops camped in the reservation, sent a squad of cavalry to the scene of the holdup and threw a cordon around the western and southern boundaries of the park.

The bandits selected an ideal spot for their work. The holdup occurred at a turn in the road and a hand with a leveled rifle confronted each coach as it arrived. The drivers and passengers were then forced to alight and throw all their money into a sack. No jewelry was taken.

Then the passengers were bidden to re-enter the coach, which, in its turn, was sent on to wait in line and make room for the next coach.

Because of the dense brush and frequent ravines in the vicinity the bandits have every advantage and it is believed they will get away.

Mrs. Bowman, Mrs. J. B. Knox, Mrs. M. J. Branecker and Mr. and Mrs. Collins Gilmore, all of San Diego, Cal., were among the holdups' victims.

THE RYAN MARKET DOES GOOD BUSINESS

Watermelons held full sway at the public market this morning. There were quantities of them and they sold at 10c, 15c and 20c each. The market was well stocked and also well patronized this morning. Mrs. Kelpy, of Fifth street, north, was the first to buy meat at the John Bailey & Son meat stall. She was at the market at 7:45. The hours at the Ryan public market will be from 6 a. m. to 6 p. m., as the farmers say, "to give people a chance to get something." Two small boys were selling their Oregon produce "like hot cakes." Arthur Zielke who lives near Livesley station, a thirteen-year old lad, sold beans, cucumbers and cabbage which he grows.

Ralph Mace, of 1343 Saginaw street, who rented a piece of ground near his home this spring had his produce, corn, lettuce, peas and tomatoes at the market. His grandmother, Mrs. J. Ralph, who lives just out of the city on the river road, contributed a huge container of sweet rich cottage cheese. The boys with their good stuff were popular among the buyers today.
